

# Basic Detail Report

---

This is the only gold dredge in the continental United States. It operates around the clock, seven days a week, moving three million cubic yards of sand and gravel every year. The dredge makes twenty-five cents per cubic yard and with the depressed gold market sometimes doesn't break even. Tri-Valley Area, Northern California, from the series "Working"

**Date**  
1976

**Primary Maker**  
Bill Owens

**Medium**  
Gelatin silver print

**Description**  
Vintage print.

**Dimensions**  
Image: 6 3/4 x 8 3/8 in. (17.1 x 21.3 cm) Sheet: 7 15/16 x 9 15/16 in. (20.2 x 25.2 cm)
